TAKEMURA

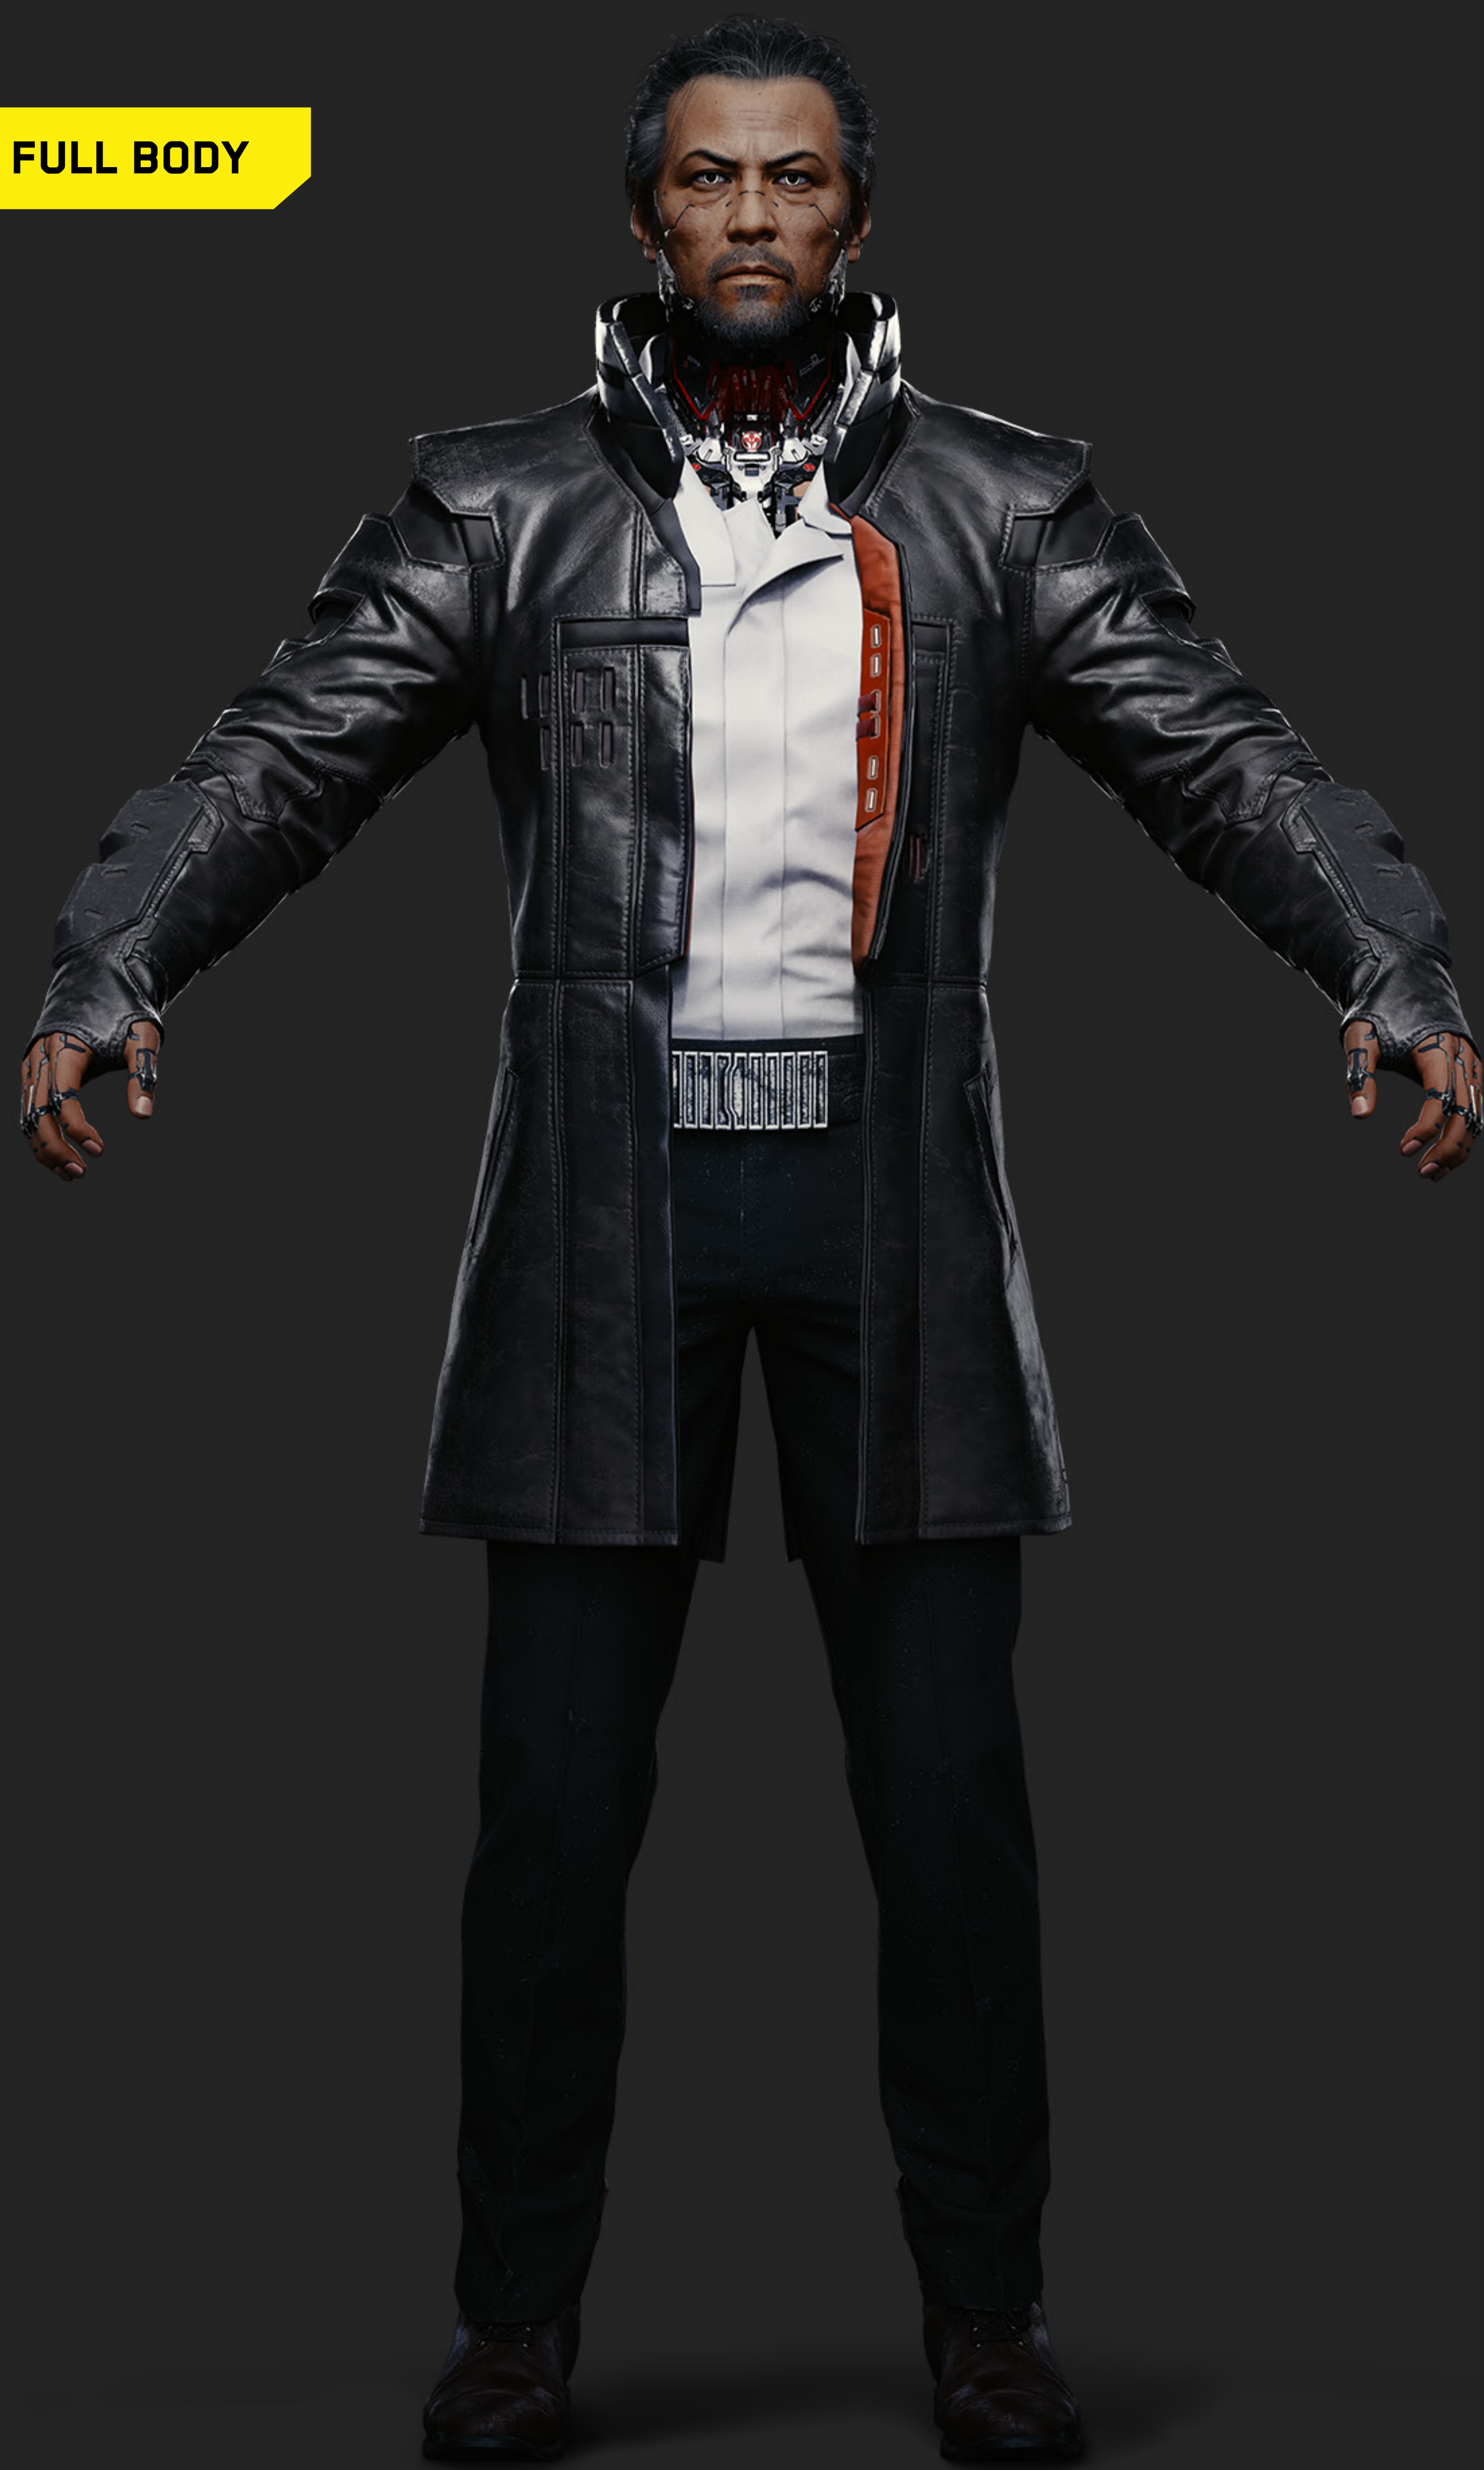

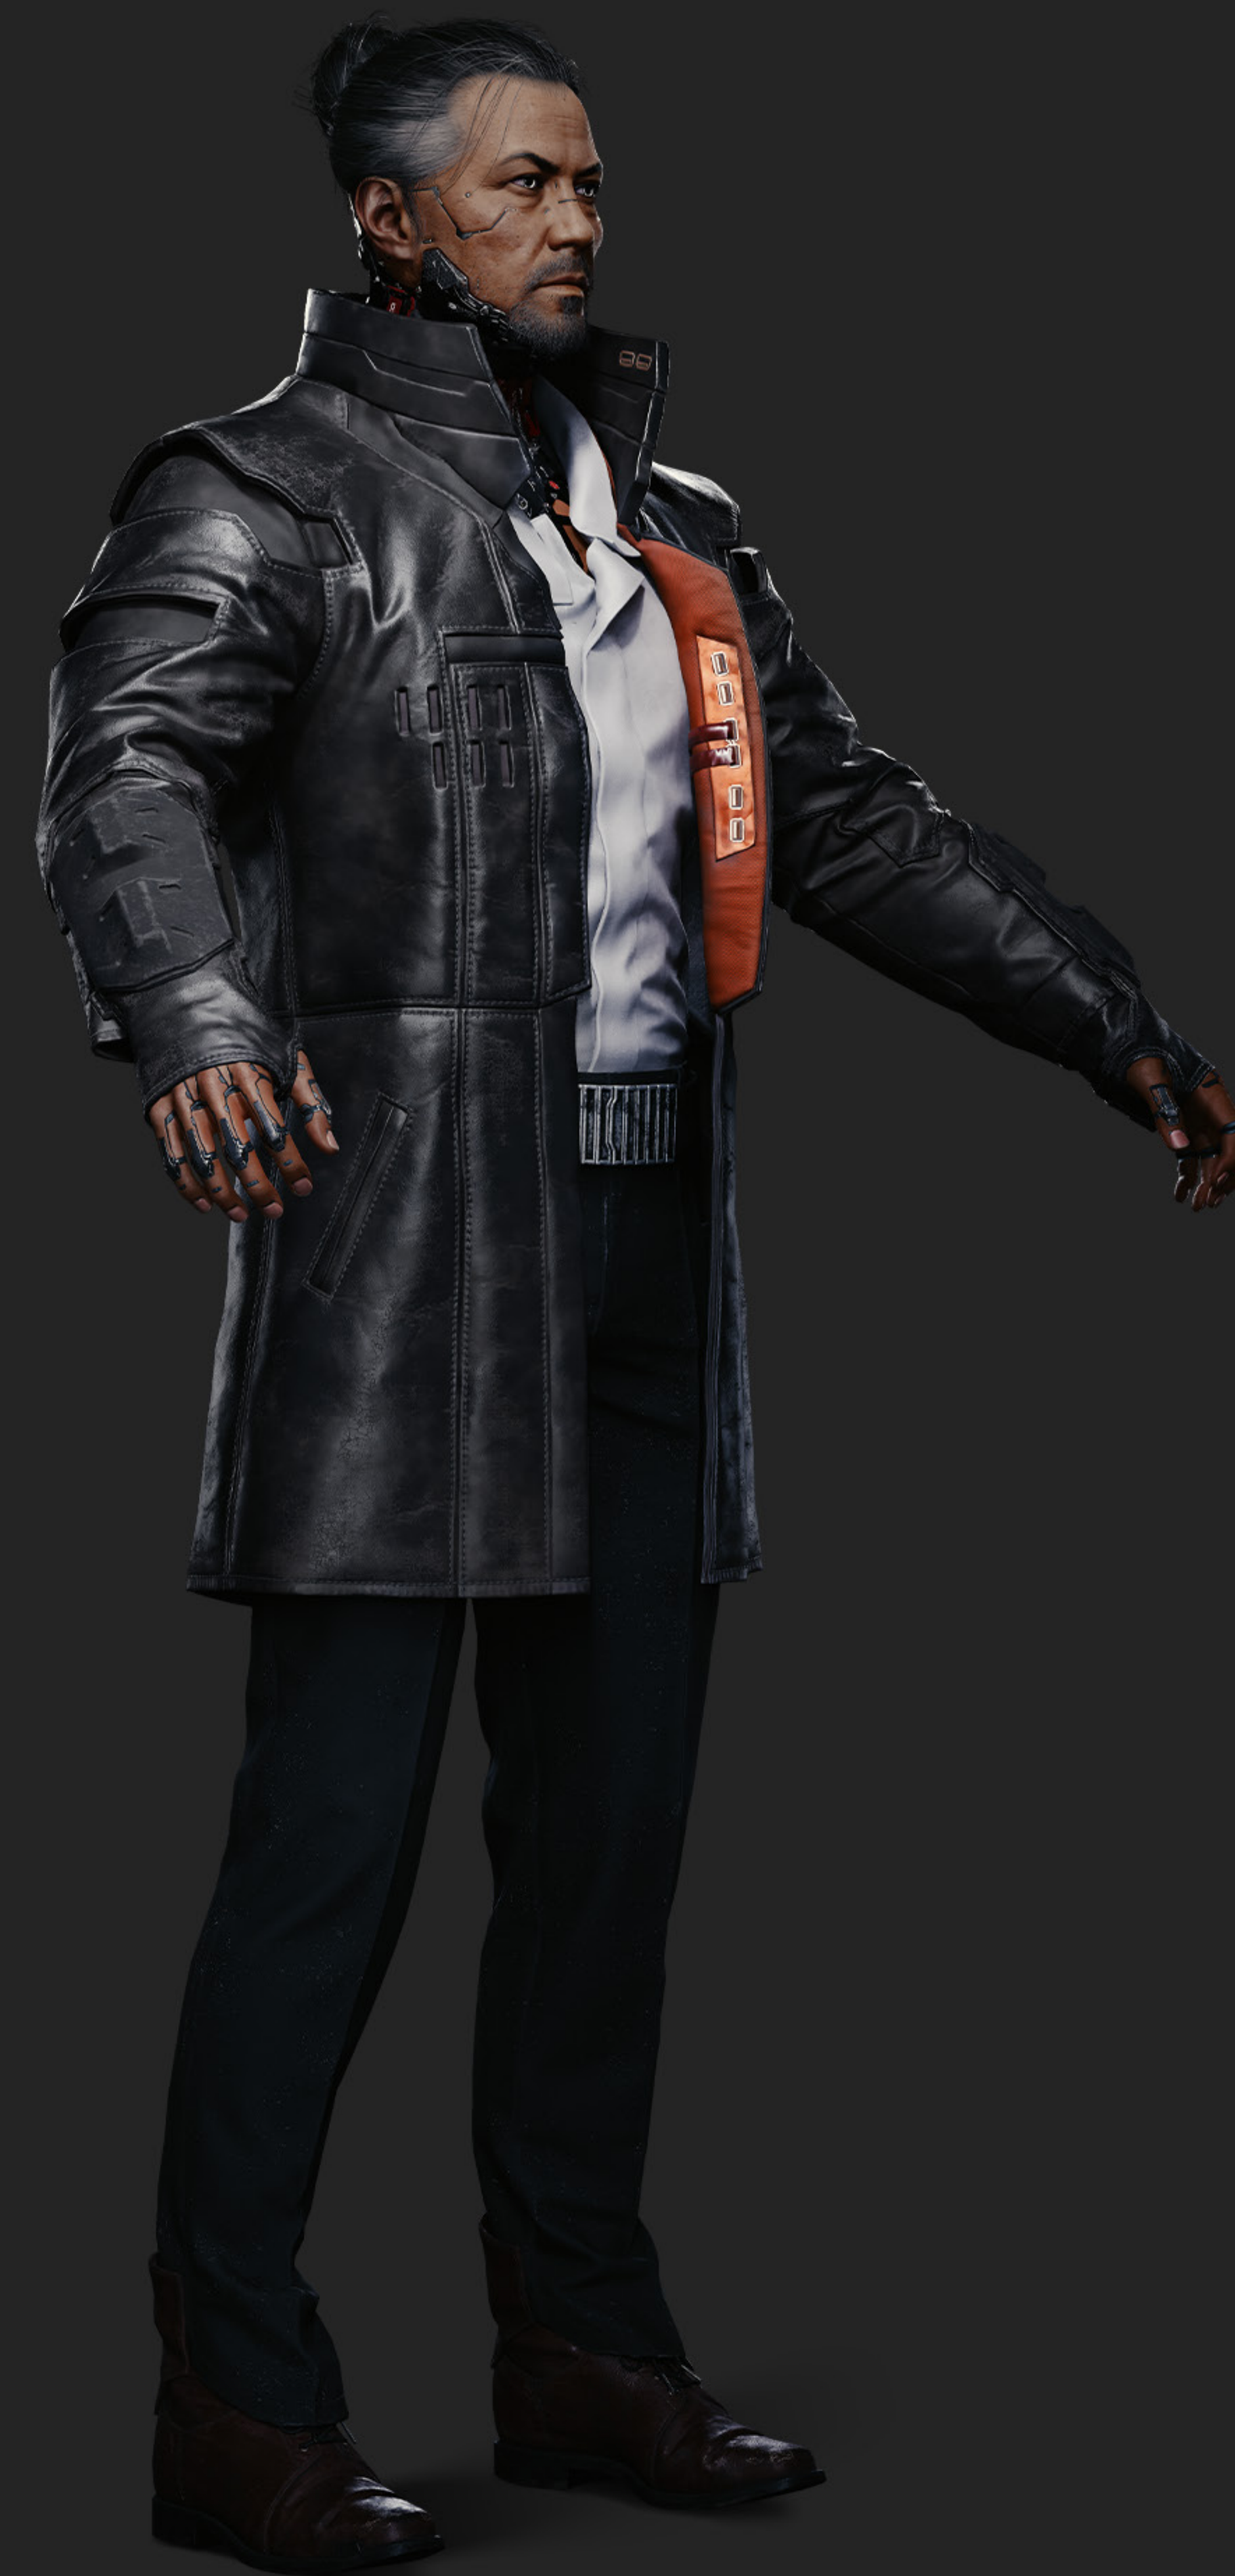

CHARACTER

GORO TAKEMURA

To sum up Takemura in a word is simple: Loyalty. From Tokyo gutter rat to personal bodyguard of Saburo Arasaka, Takemura's life of honorable service turned into a desperate fight for survival and justice in Night City. Now, guided by relentless ideals and resourcefulness, he's hell-bent on exposing his master's killer – and finding decent Japanese food in the city, if possible.

ARASAKA TKI-20 SHINGEN

Japanese culture loves smallness. Just look at the tiny, intricately crafted netsuke sculptures or the bonsai trees that fit into flowerpots. Shingen, the smart-machine-pistol made by Arasaka, is a love letter to Japan's passion for miniatures. It's hard to believe that the Shingen's stopping power, magazine size and numerous technical features fit into such a small body. Throw in an ergonomic design, tracing rounds and fast reload speed and you're looking at the dream gun of every soldier and mercenary.
