

A woman with short, layered blonde hair and blue eye makeup is cosplaying as Misty from the movie 'Scream'. She is wearing a blue, quilted, off-the-shoulder top with several holes and a black spiked choker. She is holding a stack of cards, one of which features a character in a cowboy hat against a full moon. The background is dark and out of focus.

OLSZEWSKI

CHARACTER

MISTY OLSZEWSKI

Kind-hearted and attuned to the spiritual undercurrent that thrums even in a place like Night City, Misty Olszewski is a friendly voice, a helping hand, a soothing balm of a person to anyone in need. Working above Viktor Vektor's ripperdoc clinic means she's privy to a rotating cast of mercs who stop by in need of new chrome and leave with an unexpected spiritual tune-up. From aura readings to tarot card pullings, Misty has a healthy arsenal of tools at her disposal to make Night City just a little less spiritually bereft than usual.

TAROT CARDS

If you want to be slapped up the side of the head with a hefty dose of reality, look no further than this nifty deck. Your past relationships, future ambitions, hell, your most recent outfit – nothing's safe from the scrutiny of tarot cards. Be sure to wield them responsibly; you never know when a reading will crack your skull open and expand your brain with spiritual wisdom – metaphorically, of course.
